

TOOLBOX SYSTEMS 

CUSTOM CONFIGURED FOR YOUR NEEDS

Stellar® Toolbox Systems Work As Hard As You Do

TOOL STORAGE DESIGNED FOR YOU

Stellar's full line of custom-made service truck toolbox systems are built to the highest industry standards to maximize your productivity. The variety of drawer sizes and configurations ensures an arrangement that fits every tool and always has what you need within reach.

BUILT TO LAST

Stellar Toolbox Systems are built to handle the toughest job sites, day in and day out. Every drawer, regardless of size, features heavy-duty 500-lb slide sets for maximum durability. All-metal components are used throughout construction, including the slides, so you don't have to worry about plastic parts breaking.

Smart storage.

HEAVY-DUTY PERFORMANCE IN ALUMINUM OR STEEL

Aluminum is the popular choice because of the corrosion resistance and lighter weight.

ALUMINUM

With weight savings up to 30% compared to steel models, aluminum toolbox systems are a great choice for increasing payload.

STEEL

Galvanized steel drawer components offer durability and rust prevention, while aluminum drawer fronts provide a reliable surface for the latches to strike.

DRAWER CONFIGURATION

Get the drawer depth you need to store a wide range of tools. The 3", 5" and 7" drawers can be arranged in any combination. You can also use egg crate dividers to maximize the space, add LED lighting, add a drainable drawer for placing oil filters for later disposal, choose different drawer colors – the list of configuration options with Stellar goes on and on.

HANDLE OPTIONS

T-handle and bale-style pull handles from Stellar provide easy, one-handed drawer access. The industry-first bale-style pull handles let you activate the latches by grabbing the handle from either above or below.

Bale-style grip, built for the job.

LOCKS & LATCHES

There's no cheap plastic in Stellar Toolbox Systems. All-metal components ensure that latches stay latched for security and to protect operators from injuries and tools from damage.

BOLT BINS

Conveniently store nuts, bolts, fittings and more with Stellar Bolt Bins, available in both steel and aluminum. The bolt bins can be configured in virtually any combination, and each bin includes three removable aluminum dividers for still more storage flexibility.

Built tough for better organization.
